

## Vejledning tilslutning til det trådløse netværk "Rybners" på Windows 7

Metoden kan også benyttes til Windows 8 eller 10, hvis der er problemer med den normale måde at oprette forbindelsen på disse.

1. Højreklik på Netværksikonet og vælg 'Open Network and Sharing Center'.

2. Tryk på 'Set up a new connection'.

Change advanced sharing settings

**rybners.local**  
Public network

Access type: Internet  
 Connections: Wi-Fi (Rybners)

Change your networking settings

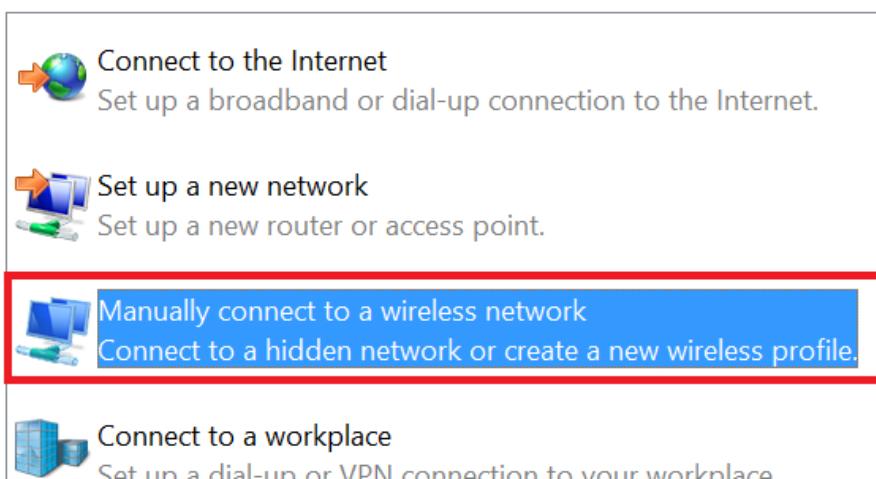

**Set up a new connection or network**

Set up a broadband, dial-up, or VPN connection; or set up a router or access point.

3. Vælg 'Manually connect to a wireless network'.

### Choose a connection option

4. Indtast oplysningerne som vist på billedet herunder.

←  Manually connect to a wireless network

Enter information for the wireless network you want to add

Network name:

Security type:

Encryption type:

Security Key:   Hide characters

Start this connection automatically

Connect even if the network is not broadcasting

Warning: If you select this option, your computer's privacy might be at risk.

5. Tryk 'Change connection settings'

Successfully added Rybners

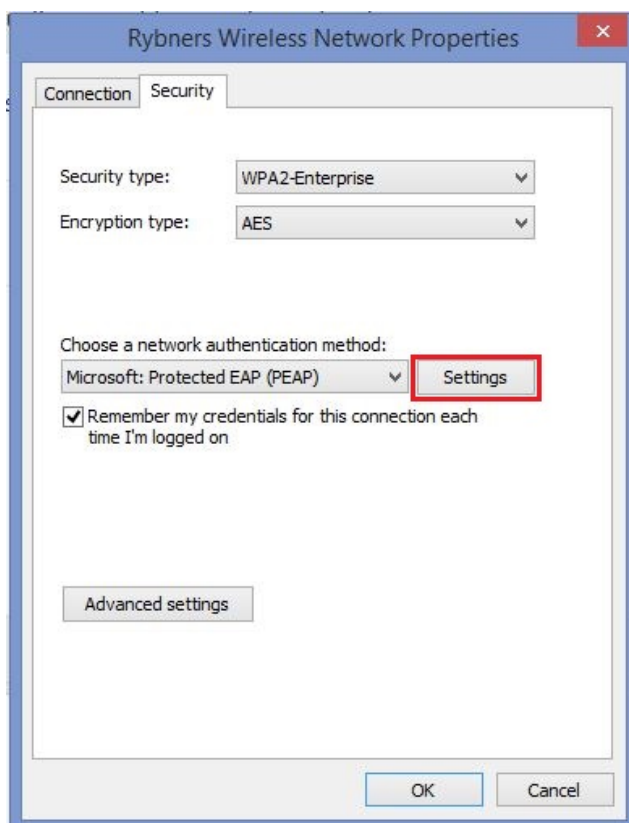

[→ Change connection settings](#)  
Open the connection properties so that I can change the settings.

6. Vælg fanen 'Security'.

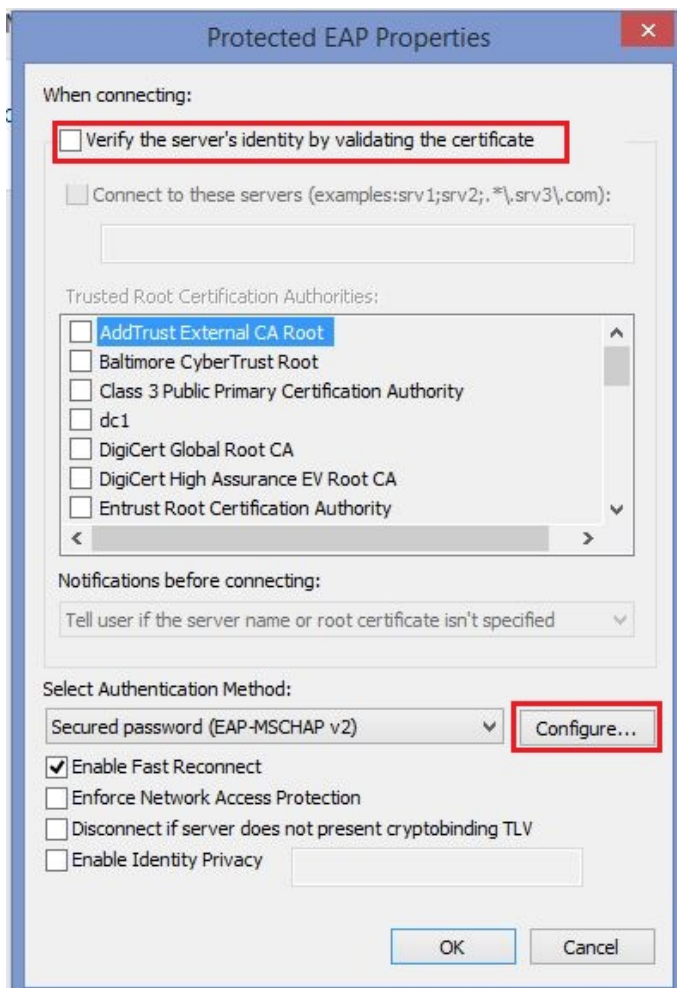

## 7. Tryk 'Settings'

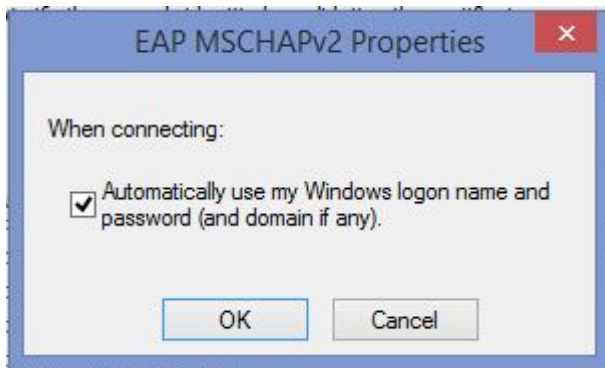

1. Fjern fluebenet fra 'Verify the server's identity by validation the certificate'.
2. Tryk 'Configure...'

1. **Fjern** fluebenet I 'Automatically use my Windows logon name and password (and domain if any).'
2. Tryk 'OK'.

3. Tryk 'OK'.

Du skulle nu kunne forbinde til det trådløse netværk 'Rybners'.
